Sir:

Introductory Comments

This paper is filed in response to the Examiner's final rejection of Claims 13-19, and 22-25 currently pending in the Application. Applicant respectfully requests that the Examiner enter the following terminal disclaimer that Applicant believes place the application in condition for allowance.

Please withdrawal the defective terminal disclaimer that was filed on September 9, 2003, and replace the defective terminal disclaimer with the present terminal disclaimer.

Serial No. 09/834,229

Double Patenting

The Examiner rejected Claims 13-19, and 22-25 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 -19 of U.S. Patent No. 6,277,819. Applicant filed a defective terminal disclaimer on September 9, 2003, which inadvertently disclaimer an unrelated patent. Please withdrawal the defective terminal disclaimer and enter the accompanying terminal disclaimer.

Applicant respectfully asserts that the Examiner's double patenting rejection has now been overcome and that the application is now in condition for allowance. If, for any reason, the Examiner feels that a telephone conversation would be helpful in expediting the prosecution of this case, the Examiner is urged to call me.

Respectfully submitted,

Gregory A. Cox
